Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed 07/21/05 have been fully considered and are persuasive. The Examiner agrees with applicant's arguments that the combination of Kiely and Uemura would result in the laser chip being irradiated with ultraviolet rays **prior** to wire-bonding, not **after** as recited in independent claims 1 and 6. It would have been unobvious as to why one of ordinary skill in the art would be motivated to irradiate the laser chip with UV rays after the wire-bonding because the reliability of ball bonding in the assembly of the combination has already improved.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Trung Dang whose telephone number is 571-272-1857. The examiner can normally be reached on Mon-Friday 9:30am-6:00pm.
